

HORIZON 2020 & FP9

Possibilities for financing LifeScience & Medtech projects....but how will you manage it?

27:e Mars, 09.00-13. Universitetssjukhuset i Linköping, lokal Antracit, Norra entrén

Registration >>>

Road map >>>

Inst. för medicinsk teknik, LiU Innovation och Grants Office at Linköping University invites to a half day, filled with advice for those who will learn more about the possibilities that EU will offer for project funding in the area of Lifescience and Medtech.

The seminar will mostly be held in English, however some part can be in Swedish.

09.00 Introduction

IMPACT is a platform with the ambition to create possibilities for Swedish actors to apply for EU-grants. Two national platforms for LifeScience and Medtech, Swelife och MT4H, give possibilities for funding. Grants Office works with support in connection with EU-applications.

***Lena Strömberg** (Impact), **Ali Moshfegh** (LiU-Innovation & Swelife),
Agneta Jansson (Grants Office), **Peter Hult** (Medtech4Health)*

09.10 EU research program, H2020 & FP9

A review of the EU research programs H2020 as well as the future program FP9. What is the vision of the research programs and what different applications with health focus in the area of Lifescience and medtech is possibly to search for today.

***Mikael Lögdlund**, Grants Office, LiU*

10.00 Coffee

10.30 We are a company – what possibilities are there for us and what support can we get?

***Sara Gunnerås**, SwedenBIO och EUSMESupport2020*

10.45 How do you apply – a cookbook

A hands-on review of the process to apply. Where to find the applications? What papers must be filled in? What support can you receive? Important things to think about. How will you find partners?

***Agneta Jansson**, Grants Office, LiU*

11.35 Protect the patent and the possibility of business

***Arne Jacobsson**, innovationsrådgivare på LiU Innovation*

11.55 Legal aspects for university and business

***Martin Putsén**, Enhetschef på Juristenheten, LiU*

12.15 Lunch, mingle & counselling

We offer you a lighter lunch under which there are possibilities to talk with the speakers and other experts. Speak with the other participants and maybe, you will find new possibilities to form constellations and to discuss suggestions for applications.
